1. PURPOSE/REASON FOR PUBLICATION

Thrush has been notified by one or more operator(s) of a crack that has developed on the aileron bell crank support tubes after hours of flight.

This Service Letter acts as an Inspection Notification to ALL S2R model aircraft operators of the possibility of a crack on the aileron bell crank support tubes.

2. SCOPE/COMPLIANCE

This Service Letter contains the instructions for the inspection of the aileron bell crank support tubes for the possibility of a crack.

3. INSTRUCTIONS

3.1 HOW TO ACCESS

- Remove panel from right-hand (RH) side of aircraft, located below cockpit and above aft wing fairing.

Figure 3.1.1

Figure 3.1.2

3.2 INSPECTION

- Visually inspect both aileron bell crank support tubes entirely, especially each weld joint.

Figure 3.1.3

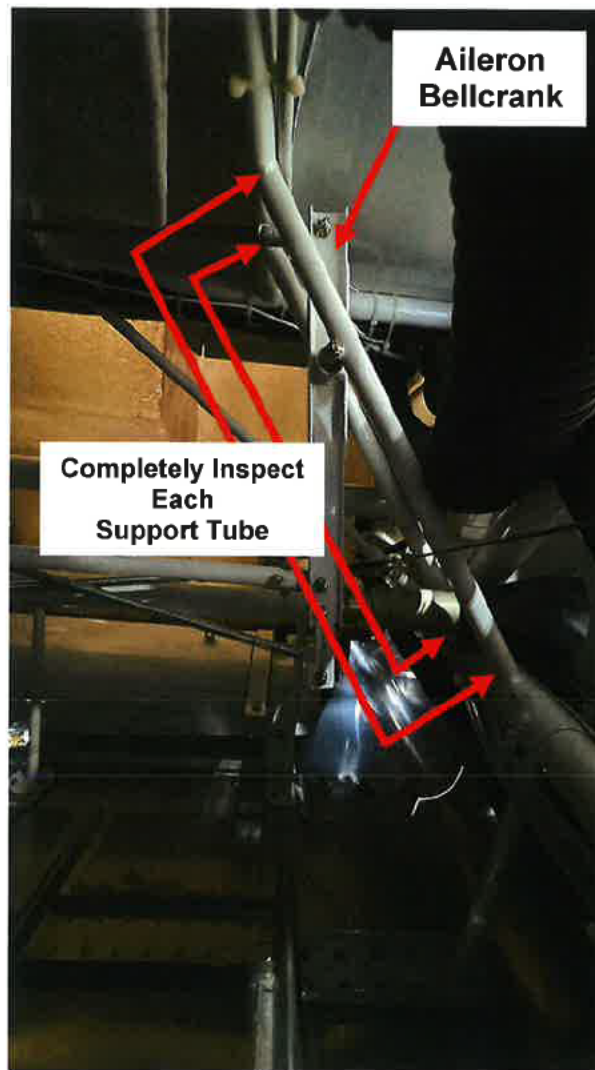

Figure 3.1.4

3.3 REPORT

- If cracks or any other damage is found, please send an email to support@thrushaircraft.com. Also, please fill out and return the Compliance Report, located on the next page.

4. COMPLIANCE

Service Letter SL-AG-133 Rev. IR Compliance Report
